

Magellan 2023 Switzerland – Colombia

It's our pleasure to inform you that the project Magellan 2023 was a great success. With the Universidad de los Andes, located in Bogotá as our partner university, we were able to create two unforgettable journeys, one taking place in Switzerland between 15th to the 24th of July 2023 and the other one in Colombia between the 27th of July until the 5th of August 2023. A total of 40 students were able to explore Switzerland as well as Colombia. Whether it was visiting the UN in Geneva or the Lindt Home of Chocolate in Zurich, river rafting in the rivers of Colombia or enjoying an empanada on the Monserrate in Bogotá, fun and joy for intercultural exchange once more flourished. Long lasting friendships were founded and all our students, once more created memorable experiences. With Magellan 2023 we were able to reach our one goal, to bring Swiss and Latin American culture together. We lived once again new cultures, brought diverse people together, and spread joy.

Bruno Aebli has passed on the legacy of Magellan to a new Chairwoman, Alyina Kaiser. Alyina will bring once again Latin America and Switzerland together, with the University of Desarrollo in Santiago de Chile as a partner university. Currently, Alyina and her team are recruiting participants for their intercultural exchange and setting up the Magellan project for 2024. The Magellan team 2024 is still looking for potential partners to support this amazing exchange of culture with Chile and Switzerland. The Magellan-Team would be happy for every contribution and support towards this cause.
